Report of the Event

Name of the event: Seminar on "Research Process and Sampling".

Name & profile of the speaker: Dr.P.G.Baskar, Prof-Mech, SVCET.

Date: 04-06-2021.

Venue: A204/Main Block & 10:30am

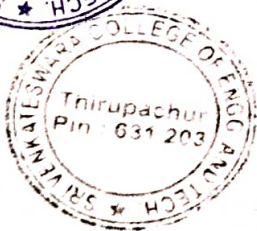

Number of participants: 59

Seminar on "Research Process and Sampling" was inaugurated on 04-06-2021 by the resource person. Principal Dr.J.Venkatesh, Sri Venkateswara College of Engineering and Technology, during his felicitation address he motivated the students to attend all the programs. Dr.P.G.Baskar, Prof-Mech, SVCET delivered details about Research Process and Sampling.

When you conduct research about a group of people, it's rarely possible to collect data from every person in that group. Instead, you select a sample. The sample is the group of individuals who will actually participate in the research.

To draw valid conclusions from your results, you have to carefully decide how you will select a sample that is representative of the group as a whole. This is called a sampling method. There are two primary types of sampling methods that you can use in your research:

- Probability sampling involves random selection, allowing you to make strong statistical inferences about the whole group.
- Non-probability sampling involves non-random selection based on convenience or other criteria, allowing you to easily collect data.

To

The Principal

Sri Venkateswara College of Engineering & Technology

Thirupachur.

Respected sir,

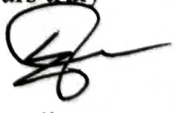

Sub: Requisition for Permission to organize the Seminar-Reg

The R&D Cell intended to organize Seminar on "Research Process and Sampling" for our students on 04-06-2021 at A204(Main Block). In this regard, kindly provide permission to conduct seminar for the above-mentioned reason.

Thank you, sir.
