ORGANISED BY
THE DEPARTMENT OF
COMPUTER SCIENCE & ENGINEERING

ABOUT THE COLLEGE

Sri Venkateswara College of Engineering and Technology (SVCET) is an engineering college located in Thirupachur, Tiruvallur, a district adjacent to Chennai city (formerly Madras), in Southern India.

The college was established in 1999 with AICTE approval and started functioning in 2000.

Sri Venkateswara College of Educational and Cultural trust which runs this college is committed to provide quality education in building the future of today's youth. In the era of globalization, working environment has become highly competitive and challenging.

A Fine Arts Club at the college aims at developing the student's talents in music , drama, drawing, writing and elocution

Eligible students can avail scholarship facilities offered by both the Government of India and the Government of Tamil Nadu. Beside these ,the college management may also offer financial supporting deserving cases

ABOUT DEPARTMENT

Computer science & engineering

As the field of computer science continues to grow rapidly, more and more individuals are seeking out computer science courses to gain the necessary skills and knowledge. With the rapid advancement of technology, there is a growing demand for professionals who possess strong programming and problem-solving skills.

Department is committed to encourage students/researchers to carry out innovative research in the field of Computer Science & Engineering, keeping excellence in focus and deliver quality services to match the needs of the technical education system, industry and society.

Department of CSE actively involved in interaction with leading technology domain Training & Development Industries.

ABOUT FDP PROGRAM

Design thinking is a process for solving problems by prioritizing the consumer's needs. It relies on observing, with empathy, how people interact with their environments, and employs an iterative, hands-on approach to creating innovative solutions. The short form of the design thinking process can be articulated in five steps or phases: empathize, define, ideate, prototype and test. One of the method in design thinking is TRIZ where it draws on the past knowledge and ingenuity of thousands of engineers to speed up creative problem solving for project teams.

TARGET AUDIENCE

Faculty members of Mechanical Engineering department of Anna university affiliated colleges.

RESOURCE PERSONS

Resource persons from reputed Academic institutions and industries will deliver the sessions and handles the practical sessions
