Mr. Namachivayam, AP, EEE Department NSS programme officer, Sri Venkateswara College of Engineering and Technology initiated his speech with life is full of wishes, love and ambition. Around 30 NSS volunteers and staff members are actively participated in this program. There is a Chinese proverb that says, "The best time to plant a tree is twenty years ago. The second-best time is now." Trees are our only lifelines, and without them, our world will get turned into barren lands without life in it. People are neglecting this fact, and as a result, desertification is happening worldwide.

5 HIV FACTS

- 1 People on effective HIV treatment can't pass it on**
Effective treatment for HIV suppresses the virus to such low levels that it can't harm you and you can't pass it on.
- 2 HIV can't be passed on through day-to-day contact**
HIV can't be passed on through things like touching, kissing, sharing cutlery or glasses.
HIV can be passed on through sex without a condom but only if a person is not on effective treatment. It can also be passed on through sharing needles and during pregnancy (but in the UK this is extremely rare because we have great treatment).
- 3 HIV can affect anyone**
Some groups of people are affected by HIV more than others, but it can be passed on to anyone.
- 4 People living with HIV can live long and healthy lives**
There isn't a cure for HIV, but there is excellent treatment. If you are diagnosed in good time and take your medication, you can have as long and healthy a life as everyone else.
- 5 There are many ways to prevent HIV**
 - Getting regularly tested for HIV if you are sexually active
 - Taking PrEP or PEP (tablets which prevent HIV either before or just after you've been exposed to it)
 - Using condoms
 - Never sharing needles
 - Taking your medication if you are living with HIV

The NSS volunteers created awareness on child labour among Koovam villagers on 21-11-2019 . Our principal Dr.J. Venkatesh presided the function and create awareness over the people and NSS volunteers about the Child labour. Child labour has been the most important concern in the world because it affects the children both mentally and physically. It also destroys the future of children. The Child labour act, 1986 defines a child as a person who has not completed the age of 14 years. Child labour is the practice of engaging the children in economic activity, on a part or full-time basis.

Our NSS volunteers distributed the pamphlets for awareness of Child labour to the general public and shops.
